About This Training

Intended Audience

This course is designed to support individuals who will be administering or heavily using Microsoft Dynamics 365 Marketing. It provides attendees who have limited or no exposure to Dynamics 365 Marketing a breadth understanding of the application. Attendees who are migrating from another Marketing solution, including the previous Microsoft solution, MDM (Microsoft Dynamics Marketing), will find value in learning new features and functionality of the most recent release.

Required Prerequisites

Participants are highly advised to be comfortable and confident with the following skills and concepts for a successful learning experience:

- Navigation
- Data entry
- Advanced Find
- Create custom fields
- Customized forms and system views

Recommended Prerequisites

Prerequisites are recommendations, and while not required, they are highly advised to ensure a successful learning experience:

- Understanding of data or relational databases is helpful
- Exposure to other Microsoft Dynamics 365 business applications is helpful, but not necessary

Key Takeaways

This Training Will Empower You To:

- Use the Dynamics 365 Marketing navigation to access records, views, dashboards, insights, calendars, and forms
- Understand the core record types and feature functionality of the app
- Learn about content management of images and keyword tagging and content blocks as well as importing and exporting data out of Dynamics 365 Marketing
- Learn how to create digital marketing content through the combination of Marketing Forms, Pages, and Emails
- Create segmented lists full of contacts to receive your marketing content and campaigns
- Understand the Lead Lifecycle and the Marketing to Sales Pipeline
- Build lead scoring models by defining conditions and corresponding actions
- Learn how to create Customer Journeys for your contacts to move through for individualized marketing experiences
- Locate and use insights and reporting capabilities for all your marketing initiatives
- Configure social media posting and management
- Learn about the multiple types of template options to begin building marketing content faster
- Understand configuration and administration options in Dynamics 365 Marketing
- Understand GDPR Policies and how they affect marketing and the GDPR features included within the application
